### To Whom It May Concern

With great pleasure, I am recommending four students of Thapar Institute of Engineering and Technology, namely Paras Bakshi, Sanidhiya, Shreya Somani, Kashish, and faculty member Dr. Prashant Singh Rana, who are working on the project Autonomous Dyslexia Evaluation System. This recommendation is based on our virtual interaction on 23<sup>rd</sup> August and appropriate studies.

The team of students led by experienced and visionary faculty members has crafted an excellent state of the start of the art software for Evaluating Dyslexic Patients and to track their progress. It was a highly enriching experience after interacting with your professionally competent and highly motivated team.

I believe that this project is an excellent fit for evaluating dyslexic children. I wish them all the best in their future endeavors.

Please find details of the student and faculty below.

#### Students

Name	Roll No.
Paras Bakshi	101917118
Sanidhiya	101917126
Shreya Somani	101917127
Kashish	101903120

And

Faculty: Dr. Prashant Singh Rana (Associate Professor)

With Sincere Regards.
